All participants are invited to submit an abstract. A limited number will be selected for oral presentations, and ample space will be provided for posters. The abstract must be formatted according to this example. Only one page may be submitted. The document must be sized as 8.5" x 11" (letter) paper with 1" borders on the top and bottom and 1.5" borders on the left and right. 12 point, Times New Roman font is used for all text in the document. The title must be bold, centered with each word capitalized (except minor words like articles or prepositions) in this font. It is followed by a blank line. The authors are listed next, providing full first and last name (including middle initials is fine) centered in italics and separated by commas. The presenting author is denoted by underline and the corresponding author is denoted by superscript “*”. The author list is followed by a blank line. Next, a line containing each author's affiliation; city, state (or country) in italics. Superscripts should identify each author with the appropriate affiliation information. The immediate next line is “Email:” followed by a single email address for the corresponding author (can be the presenting author or another author). A blank line should follow the authors' information, and then the abstract text, in justified format, should be included, not to exceed a single page (no figures). Abstracts are due by March 1, 2020. Authors will be notified in April regarding acceptance. If an abstract is accepted as a poster contribution, poster requirements will be sent to the author. Authors whose abstracts are accepted for oral presentations will also receive instructions and a scheduled time. Thank you very much for your participation, and we hope you enjoy EBSD 2020!
